

PAR36 Specification Sheet

PAR36 LEDs

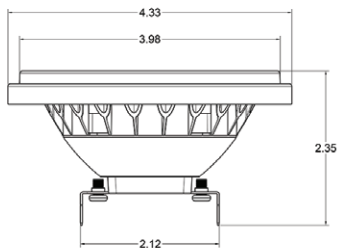

The ClaroLux® PAR36 LED lamp combines an advanced thermal design with a reduced housing footprint, resulting in a lighter, safer, easier to install lamp. Each lamp utilizes a cutting-edge driver to offer higher CRI and brightness, while maintaining a high standard of energy efficiency. The PAR36 is ideal for projects that require lighting large spaces or strong spot lighting. It is available in several color temperatures and beam angles: 38°, 60°, 120° (15°, 24° available on special order.)

FEATURES

- Durable dark silver pearl housing
- Dimmable with most magnetic transformers
- Thermally engineered to operate in enclosed fixtures
- Fully potted PC Board protects against moisture
- ETL compliant
